Rent Smart

Whether you're booking car rental services for traveling in New Delhi or Mumbai, you can now rent a car in any country through Rent Smart. We are the one-stop-shop for any type of car rentals near you, be it a luxury car rental or a budget car rental.
Founded in 2020, Rent Smart has 5 rental locations in India and a network of 2000 satisfied customers with a fleet size of more than 25 cars.

Why Rent Smart ?

RENT SMART

When it comes to leading the car rental segment, it is about the level of excellence you provide and the other add-ons you give to the customers. We have continued to build on our strong foundation with innovation & professionalism, and become even more relevant in the car rental segment.

With our high level of dedication to delivering excellence, Rent Smart provides the best value for money in the online car rental segment in India. We are one of the few companies to offer round the clock customer service and roadside assistance all around the world, thereby leading to high customer satisfaction.

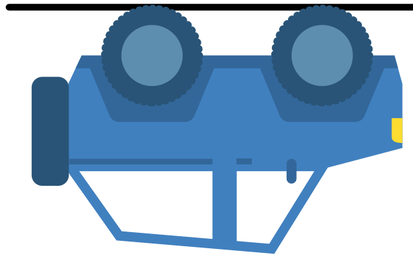
Fun Facts About Our Platform

OUR PLATFORM IS BASED FOR BOTH USERS AND EMPLOYEES

WE CREATED IT USING EXCEL TOOLS LIKE VISUAL BASICS FOR APPLICATION (VBA)

KEEPING IN MIND THE CUSTOMER USAGE, WE HAVE BUILT OUR PLATFORM TO BE EXTREMELY USER FRIENDLY AND EASY TO USE

Let's Have a Look at Our Platform



Conclusion :

USER FORMS

Our entire Platform is based on the use of Userforms and many more Excel VBA tools.

DATA ENTRY

Our platform enables us to have a systematic data entry system since its based on userforms which enter our data into the system just by a few click!

DATA RETRIEVAL

Another benefit of using userforms is that is has made data retrieval very convinient for our employess!

Thank You
